

PRODUCT DATA SHEET – Potassium Bicarbonate

PRODUCT

130764

SYNONYMS

Potassium Hydrogen Carbonate, Potassium Acid Carbonate, Monopotassium Carbonate

PRODUCT DESCRIPTION

Potassium Bicarbonate appears as odorless white crystals.

PACKAGING AND SHIPPING

Available in 25 kg Bags

CHEMICAL ANALYSIS

<i>Chemical Analysis</i>	<i>Specifications</i>
Appearance	White Crystal
Potassium Bicarbonate	96.00% Min
Potassium Chloride	0.20% Max
Potassium Sulfate	0.15% Max
Fe ₂ O ₃	0.10 ppm Max
K	37.00% Min
Water-Insoluble Matters	0.10% Max
pH	8.60% Max
Water	0.50% Max

APPLICATIONS

Potassium Bicarbonate is used to regulate pH, in fire extinguishers, and in agriculture (where it is used to neutralize acidic soil or as a fungicide).
